

I would like to know the total number of unsolved cases of suspected murder in your force area.

For each case, I'd like to know:

1. The date of the suspected murder.
2. The name, age, gender and home town of the victim.
3. The date the body of the victim was found.
4. The date on which active investigation into the case ceased.

Please see the table below showing the number of undetected murders. Please note that the date the body was found is not recorded in an easily retrievable format therefore the earliest and latest dates committed have been provided.

The data represents the number of crimes recorded which:

- were not subsequently no-crime
- were classified as 1 Murder
- were not detected (as at 13/02/2014)

These figures may be subject to further investigation, reclassification and no-criming and will therefore change over time

Crime classifications based on Home Office Counting Rules for Recorded Crime

The undetected murders above are still subject to review as per ACPO guidelines by a dedicated team within West Yorkshire Police. As such, investigation has not ceased on these cases.

West Yorkshire Police have a dedicated Department who are responsible for investigating Major and Serious Crime types across the county. This means that West Yorkshire Police can provide resource capacity and expertise in support of Territorial Districts to deliver an integrated, high level investigative service for the most serious of crimes including murder.
